

## Why Python?

Python is an open source, object oriented script language that is easy to learn, powerful and efficient. The Python community is vibrant, diverse and welcoming.

PythonKC is here to help you learn Python, advance your Python skills and meet people who like Python. We give you the opportunity to increase your proficiency, get help, give help, present on Python-related topics, and connect with others.

Like the technical community as a whole, the PythonKC community is made up of a mixture of professionals and volunteers from all over the world, working on every aspect of the mission, including mentorship, teaching, and connecting people. Diversity is one of our huge strengths.

## We Communicate Through:

Coffee and Code Meetups -  
Second Saturday of the month 10am - 12noon  
Quarterly meetups -  
Once a quarter on Thursday evenings

## We're About:

Python · Python Web Development ·  
· Django · Flask · Ansible · SaltStack ·  
· Functional Programming in Python · · Object  
Oriented Programming ·  
· Computer programming ·  
· Open Source · FOSS · Unix · Linux ·  
· GNU · Microsoft Windows ·
